CAREER OBJECTIVE

Biography Summary:

Analytical and detail-focused student with a technical skill set in cybersecurity and computer science, combined with strong data analysis and problem-solving abilities. Skilled in applying Python, SQL, and Excel to analyze data, test hypotheses, and inform decision-making. Confident in working with cross-functional teams and in a startup setting to facilitate structured execution.

EDUCATION

2023 - 2027 Bachelor's Degree at **SRM Institute of Science and Technology, Chennai** in CSE
Cyber Security
2023 Intermediate CBSE Board
2021 Class 10th CBSE Board

TECHNICAL SKILLS

- Python (data analysis basics, scripting)
- Java (OOP fundamentals)
- SQL(data querying)
- Microsoft Excel (Pivot Tables, data analysis)
- Linux
- Data Structures
- Object-Oriented Programming
- HTML, CSS, JavaScript
- Network and Information Security
- Cyber Security fundamentals

EXPERIENCE

Supraja Technologies	CyberSecurity Intern Gained hands-on experience in ethical hacking, vulnerability assessment, and penetration testing. Worked with tools like Nmap, Burp Suite, SQLmap, and Hydra to identify web and network vulnerabilities including SQLi, LFI, RFI, and file upload flaws. Explored Cyber Kill Chain, OWASP Top 10, and techniques like social engineering, command injection, and 2FA bypass. Practiced reconnaissance, enumeration, DoS attacks, and implemented VirtualBox labs using Kali Linux and Metasploitable for realistic simulations. Learned legal frameworks (IT Act 2000) and corporate security policies..	<i>May – July 2025</i>
AICTE - Intern	Internship Completed a certified internship focusing on cybersecurity principles and practical applications. Developed a capstone project titled "Secure Data Hiding in Images Using Steganography" using Python, OpenCV, and LSB steganography techniques. Implemented password-protected data embedding and real-time image manipulation for secure communication and privacy. Gained hands-on skills in ethical hacking, secure coding, and cyber law awareness..	<i>Jan - Feb 2025</i>
Oasis Infobyte	Python Intern Completed project-based internship focused on core Python programming. Gained hands-on experience with concepts such as file handling, object-oriented programming (OOP), data structures, and GUI development. Built real-world applications including a calculator, to-do list, and simple automation scripts, enhancing problem-solving and coding efficiency.	<i>June – July 2024</i>

PROJECTS & COMPETITIONS

- **Top 5 Teams** - Participated in a **CyberCarnival hackathon** and was among the top 5 teams of 20 participating groups

PROJECT 1 – SMART FOOD: Link <https://smartfoodsp.netlify.app/>

- **Tech Stack:** Java, MongoDB, HTML, CSS, JavaScript
- **OBJECTIVE** - To develop a smart food application for personalized nutrition and efficient meal planning.
- **Targeted applications:** Health-conscious individuals, dietitians, and food service platforms.

PROJECT 2 – Bus Ticket Resevation – Bus Seat Optimization System

- **Tech Stack:** Node.js, Express.js, SQL, HTML, CSS, JavaScript
- **OBJECTIVE** - To develop a dynamic bus ticket booking system with real-time seat availability and secure booking management.
- **Core Innovation:** Real-time seat booking with synchronized backend and user-friendly interface.
- **Modules:** User login, booking system, admin panel, and schedule management.
- **Outcome:** Simplified the ticketing process and improved efficiency for both users and operators..

CERTIFICATIONS

- Google (Coursera) – Foundations of Cybersecurity, Play it Safe: Manage Security Risks, Connect, and Protect: Networks and Devices
- NPTEL – Database Management Systems (DBMS) in SQL
- Deloitte – Cybersecurity Job Simulation (Forage)
- HackerRank - SQL(Basic,Advanced)
- MongoDB - DataBase Basics
- IBM Skills Build - Cybersecurity Fundamentals
- Oasis Infobyte – Internship Offer Received
- Cybersecurity Bootcamp – Best Performance Award
